AIMS Open Registration for 2016-17

I wish to extend a welcome to the 2015-16 academic term and an invitation for your school to become part of the growing number of Illinois middle schools that are members of the Association of Illinois Middle-Grade Schools (AIMS). Our goal is to provide middle schools throughout the state with support, networking opportunities, staff development and recognition for exemplary middle level educational practices.

A network membership in the Association of Illinois Middle Grade Schools helps the organization support best practices in middle level education and present programs to promote and facilitate those practices throughout the state. With your help, AIMS can expand its program offerings and celebrate the great things that go on in Illinois middle schools every day.

Membership benefits include discounted registration to AIMS conferences and workshops, no-fee roundtable discussions with administrators, access to professional support and staff development opportunities plus more....

Don't delay! I invite you to sign up today.

John Viano, Executive Director
Association of Illinois Middle-Grade Schools
